

A1 MODEL GMAX 3400

The A1 Model GMax 3400 is the introductory model of our range. Compact and versatile, the GMax 3400 is ideal for marking factories, schools, shopping centres, sports fields and light commercial duty.

The Chromex™ Rod means that even the baby of the range has the strength to be used day-in day-out while still maintaining low weight and excellent output (up to 2.8 litres per minute, max tip size .027).

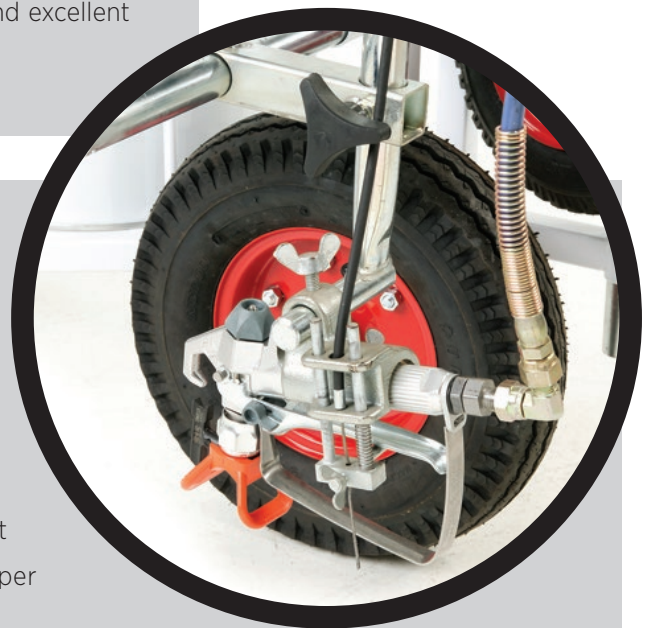

GMax 3400

A1 MODEL GMAX II 3900

The A1 Model GMax II 3900 is the perfect compact choice for professional line marking contractors. It's a lightweight machine with all the output you'll need (up to 4.7 litres per minute, max tip size .036).

The GMax II 3900 also has SmartControl™ which enables full control over the pump and its functions via its easy-to-read LCD readout.

The GMax II 3900 features Graco's ProConnect™ system which allows the pump to be removed without tools for easy repair. The machine comes complete with 15 metres of hose and one spray gun for hand/stencil work and one striping gun. A second gun is offered as an optional extra.

THE EQUIPMENT YOU NEED – THE SERVICE YOU EXPECT
