

Both the GMax II 5900 & GMax II 7900 are for the serious contractor who needs a heavy-duty line marker with no compromises.

Now you can have the best of both worlds. A heavy-duty machine fitted with the latest technology but easier to maintain than any machine you've used before.

**GMax II 5900**

## A1 MODEL GMAX II 5900

The GMax II 5900 is fitted with one hand gun and one striping gun.

The GMAX II 5900 can handle a .043 tip with a whopping six litres per minute (free flow) from its Chromex™ Piston Rod.

## A1 MODEL GMAX II 7900

The GMax II 7900 offers the most output of any piston pump pedestrian line marker on the market. Its 8.3 litre per minute (free-flow) capacity means you can spray with up to 3 guns at once! Great for airport runways. Both pumps offer the Graco ProConnect™ displacement pump which means you need NO tools to completely remove the pump. A fantastic innovation, which means less downtime when replacing the packings.

When line marking is your livelihood - don't compromise. Either one of these heavy duty machines will give you years of top performance.

**THE EQUIPMENT YOU NEED – THE SERVICE YOU EXPECT**
