

## TYPE A & B LED FLASHING ARROW SIGNS

The Type A or Type B LED Flashing Arrow Signs meet AS4192:2006 Illuminated Flashing Arrow Signs and are Transport for NSW Type Approved.

Type A or B are designed to be mounted on road vehicles, or on the cab of a vehicle, without the need for major structural alterations to the standard vehicle.

Type A & B LED Flashing Arrow Signs are available in single or double-sided and operate from 12V to 24V systems without voltage converters.

The arrow controller is lightweight and available for single or double-sided arrow signs.

### Modes Of Operation

- Arrow Right
- Arrow Left
- Double-Headed Arrow
- Non-Directional Warning

### Features

- Easy to use one touch controller, with real time display
- Arrow can be changed at the push of a button
- In built LED diagnostics
- Automatic dimming
- Heavy duty military specification wiring connectors
- Optional power lift control
