Compact Solution for Faster MMA Applications at a Lower Cost

Precise MMA 1:1 Ratios

- Innovative Flow Divider guarantees equal material flow of each component
- Built-in bypass valve for independent pump operation

Lowest Operating Cost

- No need for expensive solvents
- No solvent pump or tanks to maintain
- Eliminates solvent disposal concerns

Automatic Guns

- Reduce operator fatigue with push button control
- Eliminate tape measures and pre-marking with chalk

Real-Time Job Performance Data

LiveLook™ Display with SmartControl™

- Tracks all aspects of your job
- USB download for proof-of-job performance

Graco Fusion® Air-Purge Gun mixes materials "at the gun"

Instant air purge after every line

- Clears all material in the mixing chamber and eliminates buildup of material on the tip
- Quick-release fluid housing lets you easily change mix chamber without tools
- RAC® 5 SwitchTips™ for easy clearing of a tip clog
